

Please do not take K-Love radio station off of the air. It is an FM translator service station. You are considering Low Power FM expansion which will take priority over current FM translator service. This would be disasterous. K-Love is a non profit station, existing by donations only. I am a regular monthly donor. Thousands listen are encouraged daily to K-Love radio across the country, as well as Air-1. Contemporary Christian Music is very positive and encouraging. If the proposed expansion of LPFM occurs, I think society as a whole will suffer greatly. There will be an increase of depression, and suicide for some, as well as hopelessness for others. My family of 4, including an 18 yr. old, and a 12 year old, would suffer greatly. Thank you for your attention. Diane Andre
